Journal of Ethnopharmacology 54 (1996) 181–184

Journal of ETHNO-PHARMACOLOGY

Subject index

Volume 54 (1996)

Acanthaceae; *Eremomastax speciosa*; African ethnomedicine; Antiulceration **54**, 139

African ethnomedicine; *Eremomastax speciosa*; Acanthaceae; Antiulceration **54**, 139

Alkaloids; *Psychotria carthagenensis*; Toxicity **54**, 37

Amoebiasis; Medicinal herbs; Immune modulation; Amoebic liver abscess; Crude drugs **54**, 119

Amoebic liver abscess; Amoebiasis; Medicinal herbs; Immune modulation; Crude drugs **54**, 119

Analgesic; *Litchi chinensis* leaves; Antiinflammatory; Antipyretic **54**, 1

Anaphylaxis; *Poncirus trifoliata*; Rutaceae; Histamine; cAMP; Intracellular calcium **54**, 77

***Angelica sinensis* root**; TCM; Vitiligo; Mouse melan-a cell line; Proliferation **54**, 165

Anopheles stephensi; Dioncophylline A; Naphthylisoquinoline alkaloid; *Triphyophyllum peltatum*; Larvicide; Malaria vector **54**, 125

Antibacterial activity; Flavone; Cariogenic bacteria; Growth inhibition **54**, 171

Antiepileptic; Epilepsy; Plant extract; Ethnopharmacology; Excitatory amino acid; *N*-Methyl-D-aspartate receptor **54**, 103

Antihypertensive agents; *Solanum sisymbriifolium* Lam.; ARH + DOCA (adrenal regeneration hypertension + deoxycorticosterone acetate) **54**, 7

Antiinflammatory; *Litchi chinensis* leaves; Analgesic; Antipyretic **54**, 1

Antimicrobial activity; Isopyrum thalictroides; Fractions; Immunological activity **54**, 143

Anti-pyretic; *Litchi chinensis* leaves; Antiinflammatory; Analgesic **54**, 1

Antiulceration; *Eremomastax speciosa*; Acanthaceae; African ethnomedicine **54**, 139

Apocynaceae; *Plasmodium falciparum*; Human malaria; In vitro; *Picralima nitida*; [^{3}H]Hypoxanthine incorporation; Growth inhibition **54**, 113

ARH + DOCA (adrenal regeneration hypertension + deoxycorticosterone acetate); *Solanum sisymbriifolium* Lam.; Antihypertensive agents **54**, 7

cAMP; *Poncirus trifoliata*; Rutaceae; Anaphylaxis; Histamine; Intracellular calcium **54**, 77

Cariogenic bacteria; Antibacterial activity; Flavone; Growth inhibition **54**, 171

Chinese medicinal plants; Radioligand receptor binding assays; CNS **54**, 153

Chinese medicine; Medical ethnobotany; Islamic drugs **54**, 85

Cholesterol excretion; *Laminaria* species; Sodium alginate; Low-molecular weight sodium alginate; Glucose absorption; Small intestine **54**, 47

CNS; Radioligand receptor binding assays; Chinese medicinal plants **54**, 153

Crude drugs; Amoebiasis; Medicinal herbs; Immune modulation; Amoebic liver abscess **54**, 119

Decisions; Pharmacological studies; Underdeveloped countries; Medicinal plants; Strategies; Selection of species **54**, 131

Dioncophylline A; Naphthylisoquinoline alkaloid; *Triphyophyllum peltatum*; Larvicide; *Anopheles stephensi*; Malaria vector **54**, 125

Dried sheep placenta; Oxytocic effect; Mammalian smooth muscle; Langendorff heart **54**, 27

Dual inhibitor; *Ocimum sanctum*; Fixed oil; Inflammation **54**, 18

D-400; Wistar rats; Streptozotocin; Hyperglycaemia; Nephropathy; Lipid profile; Glycogen **54**, 41

Epilepsy; Antiepileptic; Plant extract; Ethnopharmacology; Excitatory amino acid; *N*-Methyl-D-aspartate receptor **54**, 103

Eremomastax speciosa; Acanthaceae; African ethnomedicine; Antiulceration **54**, 139

Ethnopharmacology; Epilepsy; Antiepileptic; Plant extract; Excitatory amino acid; *N*-Methyl-D-aspartate receptor **54**, 103

Excitatory amino acid; Epilepsy; Antiepileptic; Plant extract; Ethnopharmacology; *N*-Methyl-D-aspartate receptor **54**, 103

Fixed oil; *Ocimum sanctum*; Inflammation; Dual inhibitor **54**, 18

Flavone; Antibacterial activity; Cariogenic bacteria; Growth inhibition **54**, 171

Fractions; Isopyrum thalictroides; Antimicrobial activity; Immunological activity **54**, 143

Glucose absorption; *Laminaria* species; Sodium alginate; Low-molecular weight sodium alginate; Cholesterol excretion; Small intestine **54**, 47

Glycogen; D-400; Wistar rats; Streptozotocin; Hyperglycaemia; Nephropathy; Lipid profile **54**, 41

Growth inhibition; Antibacterial activity; Flavone; Cariogenic bacteria **54**, 171

Growth inhibition; *Plasmodium falciparum*; Human malaria; In vitro; *Picralima nitida*; Apocynaceae; [^{3}H]Hypoxanthine incorporation **54**, 113

Hematocrit; Radiation; Si-Jun-Zi-Tang; Spleen colony-forming unit (CFUs); Hematocytes **54**, 69

Hematocytes; Radiation; Si-Jun-Zi-Tang; Spleen colony-forming unit (CFUs); Hematocrit **54**, 69

[^{3}H]Hypoxanthine incorporation; *Plasmodium falciparum*; Human malaria; In vitro; *Picralima nitida*; Apocynaceae; Growth inhibition **54**, 113

Histamine; *Poncirus trifoliata*; Rutaceae; Anaphylaxis; cAMP; Intracellular calcium **54**, 77

Human malaria; *Plasmodium falciparum*; In vitro; *Picralima nitida*; Apocynaceae; [^{3}H]Hypoxanthine incorporation; Growth inhibition **54**, 113

Hyperglycaemia; D-400; Wistar rats; Streptozotocin; Nephropathy; Lipid profile; Glycogen **54**, 41

Immune modulation; Amoebiasis; Medicinal herbs; Amoebic liver abscess; Crude drugs **54**, 119

Immunological activity; Isopyrum thalictroides; Fractions; Antimicrobial activity **54**, 143

Inflammation; *Ocimum sanctum*; Fixed oil; Dual inhibitor **54**, 18

Intracellular calcium; *Poncirus trifoliata*; Rutaceae; Anaphylaxis; Histamine; cAMP **54**, 77

In vitro; *Plasmodium falciparum*; Human malaria; *Picralima nitida*; Apocynaceae; [^{3}H]Hypoxanthine incorporation; Growth inhibition **54**, 113

Islamic drugs; Medical ethnobotany; Chinese medicine **54**, 85

Isopyrum thalictroides; Fractions; Antimicrobial activity; Immunological activity **54**, 143

***Laminaria* species**; Sodium alginate; Low-molecular weight sodium alginate; Cholesterol excretion; Glucose absorption; Small intestine **54**, 47

Langendorff heart; Dried sheep placenta; Oxytocic effect; Mammalian smooth muscle **54**, 27

Larvicide; Dioncophylline A; Naphthylisoquinoline alkaloid; *Triphyophyllum peltatum*; *Anopheles stephensi*; Malaria vector **54**, 125

Lipid profile; D-400; Wistar rats; Streptozotocin; Hyperglycaemia; Nephropathy; Glycogen **54**, 41

***Litchi chinensis* leaves**; Antiinflammatory; Analgesic; Antipyretic **54**, 1

Low-molecular weight sodium alginate; *Laminaria* species; Sodium alginate; Cholesterol excretion; Glucose absorption; Small intestine **54**, 47

Malaria vector; Dioncophylline A; Naphthylisoquinoline alkaloid; *Triphyophyllum peltatum*; Larvicide; *Anopheles stephensi* **54**, 125

Mammalian smooth muscle; Dried sheep placenta; Oxytocic effect; Langendorff heart **54**, 27

Medical ethnobotany; Islamic drugs; Chinese medicine **54**, 85

Medicinal herbs; Amoebiasis; Immune modulation; Amoebic liver abscess; Crude drugs **54**, 119

Medicinal plants; Pharmacological studies; Underdeveloped countries; Strategies; Decisions; Selection of species **54**, 131

Methanolic extract; *Nelumbo nucifera*; Rhizome; NNRE; Psychopharmacological activity **54**, 63

Mouse melan-a cell line; *Angelica sinensis* root; TCM; Vitiligo; Proliferation **54**, 165

Naphthylisoquinoline alkaloid; Dioncophylline A; *Triphyophyllum peltatum*; Larvicide; *Anopheles stephensi*; Malaria vector **54**, 125

Nelumbo nucifera; Rhizome; Methanolic extract; NNRE; Psychopharmacological activity **54**, 63

Nephropathy; D-400; Wistar rats; Streptozotocin; Hyperglycaemia; Lipid profile; Glycogen **54**, 41

***N*-Methyl-D-aspartate receptor**; Epilepsy; Antiepileptic; Plant extract; Ethnopharmacology; Excitatory amino acid **54**, 103

NNRE; *Nelumbo nucifera*; Rhizome; Methanolic extract; Psychopharmacological activity **54**, 63

Ocimum sanctum; Fixed oil; Inflammation; Dual inhibitor **54**, 18

Oxytocic effect; Dried sheep placenta; Mammalian smooth muscle; Langendorff heart **54**, 27

Pharmacological studies; Underdeveloped countries; Medicinal plants; Strategies; Decisions; Selection of species **54**, 131

Picralima nitida; *Plasmodium falciparum*; Human malaria; In vitro; Apocynaceae; [^{3}H]Hypoxanthine incorporation; Growth inhibition **54**, 113

Plant extract; Epilepsy; Antiepileptic; Ethnopharmacology; Excitatory amino acid; *N*-Methyl-D-aspartate receptor **54**, 103

Plasmodium falciparum; Human malaria; In vitro; *Picralima nitida*; Apocynaceae; [^{3}H]Hypoxanthine incorporation; Growth inhibition **54**, 113

Poncirus trifoliata; Rutaceae; Anaphylaxis; Histamine; cAMP; Intracellular calcium **54**, 77

Proliferation; *Angelica sinensis* root; TCM; Vitiligo; Mouse melan-a cell line **54**, 165

Psychopharmacological activity; *Nelumbo nucifera*; Rhizome; Methanolic extract; NNRE **54**, 63

Psychotria carthagenensis; Alkaloids; Toxicity **54**, 37

Radiation; Si-Jun-Zi-Tang; Spleen colony-forming unit (CFUs); Hematocytes; Hematocrit **54**, 69

Radioligand receptor binding assays; CNS; Chinese medicinal plants **54**, 153

Rhizome; *Nelumbo nucifera*; Methanolic extract; NNRE; Psychopharmacological activity **54**, 63

Rutaceae; *Poncirus trifoliata*; Anaphylaxis; Histamine; cAMP; Intracellular calcium **54**, 77

Selection of species; Pharmacological studies; Underdeveloped countries; Medicinal plants; Strategies; Decisions **54**, 131

Si-Jun-Zi-Tang; Radiation; Spleen colony-forming unit (CFUs); Hematocytes; Hematocrit **54**, 69

Small intestine; *Laminaria* species; Sodium alginate; Low-molecular weight sodium alginate; Cholesterol excretion; Glucose absorption **54**, 47

Sodium alginate; *Laminaria* species; Low-molecular weight sodium alginate; Cholesterol excretion; Glucose absorption; Small intestine **54**, 47

***Solanum sisymbriifolium* Lam.**; Antihypertensive agents; ARH + DOCA (adrenal regeneration hypertension + deoxycorticosterone acetate) **54**, 7

Spleen colony-forming unit (CFUs); Radiation; Si-Jun-Zi-Tang; Hematocytes; Hematocrit **54**, 69

Strategies; Pharmacological studies; Underdeveloped countries; Medicinal plants; Decisions; Selection of species **54**, 131

Streptozotocin; D-400; Wistar rats; Hyperglycaemia; Nephropathy; Lipid profile; Glycogen **54**, 41

TCM; *Angelica sinensis* root; Vitiligo; Mouse melan-a cell line; Proliferation **54**, 165

Toxicity; *Psychotria carthagenensis*; Alkaloids **54**, 37

Triphyophyllum peltatum; Dioncophylline A; Naphthylisoquinoline alkaloid; Larvicide; *Anopheles stephensi*; Malaria vector **54**, 125

Underdeveloped countries; Pharmacological studies; Medicinal plants; Strategies; Decisions; Selection of species **54**, 131

Vitiligo; *Angelica sinensis* root; TCM; Mouse melan-a cell line; Proliferation **54**, 165

Wistar rats; D-400; Streptozotocin; Hyperglycaemia; Nephropathy; Lipid profile; Glycogen **54**, 41
